

# ATTENTION!

Oak processionary moth (OPM) caterpillars and nests could be on oak trees in this location.

## IF YOU SEE SIGNS OF OPM, AVOID IT AND REPORT IT\*

The caterpillars of OPM are pests of oak trees and a hazard to human and animal health.

### WHAT NOT TO DO...

- Touch or go near caterpillars or nests.
- Let children or pets go near caterpillars or nests.
- Try to remove nests or caterpillars yourself.

For serious allergic reactions, please call **NHS111**, see a doctor or vet for your pet.
